

CHRISTOPHER PEREZ

Fremont, CA 94538 | (772) 607-1027 | Cpconnect2016@yahoo.com | linkedin.com/in/christopher-perez03

OBJECTIVE

Data Science student seeking to apply my passion for data and programming in an internship, with hands-on experience in ML, computer vision, and full-stack development.

EDUCATION

San Jose State University

San Jose, CA

B.S. in Data Science; Minor in Business

Aug. 2025 – Dec. 2027

Ohlone College

Fremont, CA

A.S. in Mathematics

Aug. 2023 – May. 2025

- **Relevant Coursework:** Intro to Programming in C++, Object-Oriented Programming in C++, Java, Discrete Math, Data Structures & Algorithms, Assembly Language
- **Math:** Calculus I, Calculus II, Calculus III, Linear Algebra

EXPERIENCE

R&D Staff Intern

June 2024 – Aug. 2024

CharmHealth

Pleasanton, CA

- Built a NLP real-time ML features on NVIDIA Jetson Orin platform using speech AI (Riva) in Linux/Docker environments, enabling full functionality in application building for speech to text
- Developed and trained a Python-based LLM NER model to automatically tag 100+ types of medical terminology with 98.3% precision, reducing manual annotation time
- Implemented speaker diarization to enable automatic doctor-patient transcription with entity highlighting.

Coding Coach

Jan. 2026 – Present

theCodersSchool

Fremont, CA

- Teaching and developing young coders through the ages 8-17 on developing the logic and skills to code and work on affirmative projects in Python.

NCAS (NASA Community College Aerospace Scholars)

Feb. 2024 – July. 2024

Team Project Manager & Computer Engineer

Remote

- Led a simulated lunar surface exploration/habitat mission with a \$150,000 project budget; coordinated responsibilities and deliverables.
- Developed leadership, collaboration, and technical communication skills within an aerospace context.

Data Collector

June. 2026 – Aug. 2026

WorkStream

Menlo Park, CA

- Handling manual tasks repeatedly and gathering data through wearing camera led equipment.
- Developed new skills from working at restaurants, Boba shops, and other various places.

Test Technician

Aug. 2026 – Present

Hyve Solutions

Fremont, CA

- Troubleshoot and calibrate server hardware components, utilizing Linux, python to identify issues and configure.
- Prioritized following TPIs to set up and test systems, perform rework while preparing detailed technical reports using Jira system to collaborate on server issues.
- Working on multiple projects such as Oracle, Microsoft, AI and GPU based systems.

PROJECTS

T.A.R.S — Modular AI Assistant (*React, Node.js, JavaScript, Python, OpenCV*) *Sept. 2025 – Dec. 2025*

- Designed a modular, intelligent assistant system; built UI with React/Node.js.
- Implemented computer vision object detection with Python & OpenCV.
- Deployed to GitHub and presented to the San Jose State University AI club.

Deer Finders — Computer Vision Wildlife Tracker (*PyTorch, Python*)

Aug. 2023 – May 2025

- Developed a data pipeline to analyze deer population trends using computer vision outputs.
- Used PyTorch to visualize and interpret image-derived data from field cameras.

Climate Awareness Program — Energy Conservation (*C++*)

Aug. 2023 – Dec. 2023

- Built a collaborative C++ program to provide users feedback on energy consumption and climate impact.

TECHNICAL SKILLS

Languages: C++, Python, SQL, Java, Mathematica, Matlab, L^AT_EX

Frameworks/Tools: PyTorch, Docker, Node.js, GitHub, Linux, Jira

Soft Skills: Problem-solving, creative thinking, teamwork, leadership, attention to detail, collaboration
